The future is taking shape
Since our founding more than 60 years ago, Peconic Bay Medical Center has been the product of visionary community leaders who perceived a need for better quality healthcare and who acted to make their vision a reality.

As the largest health services provider on Long Island’s fabled East End, we have grown to meet the needs of a growing population. As you will see in the pages that follow, we are striving to live up to the expectations of residents who rightfully believe they deserve healthcare quality commensurate with the East End’s world-class quality of life.

And, thanks to the support of our community and the East End’s strongest team of healthcare professionals, we are succeeding.

The East End deserved a Regional Medical Center. We’re building it.

We are now the #1 healthcare resource for more than 250,000 East End residents.
Peconic Bay Medical Center’s Critical Care Tower, the future home for the expanded Kanas Regional Heart Center
For decades, residents of the East End had to travel farther for advanced life-saving services than residents of any other region in the Tri-State Area. Then, in 2017, thanks to generous support from community leaders and the leading-edge resources of Northwell Health, we opened the North Fork’s first Level III Trauma Center and first Interventional Cardiac Catheterization Suite.

**Heart Attack Treatment:**
In 2018, we performed 880 cardiac catheterizations and 150 artery-opening stent placements, including 45 patients experiencing life-threatening STEMI heart attacks.

**Trauma Treatment:**
Our Level III Trauma services coordinate all our multi-disciplinary resources to treat accident victims. In 2018, our Emergency Department saw 36,750 cases and 602 were Trauma specific.

**Stroke Treatment:**
In 2018, our award-winning NYS-designated Stroke Center responded to the needs of 438 stroke patients... more than one per day.

**SkyHealth Emergency Transport:**
Northwell Health’s emergency helicopter service provides patients with the fastest transport option when extreme medical needs arise.

When every moment counts, the East End counts on us.
Launched with a $5 million gift from the John and Elaine Kanas Family Foundation, the Kanas Regional Heart Center provides the East End’s most comprehensive range of cardiology services including state-of-the-art diagnostic, interventional, and rehabilitation services.

The Heart Center will undergo additional expansion when it moves into specially designed quarters in our new $65-million Critical Care Tower in mid-2020. The expansion will include the opening of an additional interventional cardiac catheterization suite, as well as expanded rehabilitation facilities.

Our Kanas Regional Heart Center provides the East End’s most comprehensive range of advanced cardiology services
Our Heart Center responds for a first responder

An FDNY Firefighter, Ed Rebentisch was trained to respond in an emergency. In October 2018, when he felt sudden pain and tightness in his chest, he took himself to Peconic Bay Medical Center’s Emergency Department. He was having a heart attack.

Moments later, he was being wheeled into the Kansas Regional Heart Center’s Cath Lab, where the cardiac team placed stents in Ed’s coronary artery, saving his life.

“You always assumed that for the best medical care you had to drive west,” Ed said. “But it’s right here.”

“It’s right here.”
Multidisciplinary preparation and coordination enables Peconic Bay Medical Center’s Emergency Department Trauma Team to respond quickly and effectively to life-critical emergencies.

With a fresh team of life-support-certified responders always on duty, 10 board-certified trauma surgeons on call 24/7, and fast-track coordination with all the medical center’s medical and logistical resources, the Trauma Center provides the closest access to advanced life-saving services for roughly a quarter-million residents of Suffolk County's Central East End and North Fork.

Peconic Bay Medical Center’s Level III Trauma Center is no ordinary emergency room.
It’s a team effort. And it’s a great team.

Earning designation as a Level III Trauma Center took great dedication and intensive training of our physicians, nurses, technicians and support staff. Rising to that challenge has created a cohesive team ready to respond to complex emergencies.
Perhaps more than any other factor, a hospital’s quality of care depends on the quality of its nurses. In that regard, Peconic Bay Medical Center is strong and growing stronger.

At a time when the competition for talent is the highest it has ever been, we’re getting better at keeping our best nurses. According to our 2018 staff survey, our percentage of nurses who are planning to leave within the next five years has declined by 26% from 2017. Among our Emergency Department nurses, our turnover rate for 2018 was 75% lower than for 2017, and at just 6% was far below the 20% national average for ED nurses.

By the end of 2018, thanks to our nurses’ commitment to continuous self-development and Northwell Health’s support for career advancement:

- 27% of our clinical nurses had earned specialty certificates in recognition of advanced training... an increase of 50% over 2017
- 51% of our clinical nurses had earned bachelor degrees or higher... an increase of 24% over 2017

Better skills for our nurses means better care for our patients.
Terrial Buhner, RN, BSN
Clinical Resource Registered Nurse

A patient-care team member at Peconic Bay Medical Center for more than 25 years, Terrial began her healthcare career as a phlebotomist, then went back to school to become a Licensed Practical Nurse. Ten years later, she went back to school again to earn her RN. And ten years after that, she went back to school again to earn her BSN degree, which she received in August of 2018. In her new position, Terrial mentors our night-shift nurses to support their career development and improve patient care.
Shortages of qualified doctors, nurses and medical technologists are a growing problem in many parts of the country.

At Peconic Bay Medical Center, we help assure the quality of our next generations of caregivers by providing leading-edge training for the talented daughters and sons of our own community. Our programs also attract top talent from around the world.

**Internships and residency programs**

As a major clinical campus for the New York College of Osteopathic Medicine, Peconic Bay Medical Center hosts highly regarded graduate medical education programs in Family Medicine and General Surgery.

**Nursing career development**

Thanks to support from Northwell Health and local organizations like the Mattituck Lions Club, we provide tuition and mentoring support for our already-excellent nursing staff to attain advanced degrees and specialized board certifications.

**Professional radiology training**

We are proud to sponsor and host the Peconic Bay School of Radiologic Technology, Long Island’s leading JCERT-accredited training program for radiologic technologists, which is affiliated with Empire State College.

We’re developing the next generations of caregivers right here.
When it comes to the health and safety of our patients, last year’s achievements are just this year’s starting points. We are committed to continuous improvement in every detail of our performance, because every detail matters.

2017 was tough to top, because we made great strides in virtually all of our most critical patient-safety measures, reducing our hospital-wide rate of hospital-borne infections by 30% over the previous year.

In 2018, we did even better, reducing that rate by an additional 75%.

2018 Quality Improvement Markers
– Hospital associated infections: Decreased 75%*
– C-Diff incidence: Decreased 72%*
– Central line infections (CLABSI): Eliminated
– Catheter infections (CaUTI): Eliminated

* (compared to 2017)
Measuring up in the ED

Lincoln Cox, MD, FACEP
Chair, Department of Emergency Medicine
Peconic Bay Medical Center’s Nominee for Northwell Health Physician of the Year

One oft-used measure of the level of care delivered by an Emergency Department is known as “Door-to-Doc” – a measure of the length of time from when a patient signs in until that person is actually seen by a doctor. With expansion of the ED and launching of Level III Trauma Center service, patient volumes increased dramatically, so Dr. Cox initiated an improvement campaign that, in a single year, cut the ED’s “Door-to-Doc” times in half.

Measuring up in the ICU

Maureen Stefanidis, RN, MSN
Nurse Manager, Intensive Care Unit
Peconic Bay Medical Center’s Nominee for Northwell Health Manager of the Year

With the launching of the Medical Center’s Level III Trauma Center and Cardiac Catheterization services, 2018 was probably the most intense year ever for the ICU both in terms of volume and complexity of patients served.

Not only was ICU Nurse Manager Maureen Stefanidis able to integrate many new staff members into the ICU team, she also led the team to achieve greater measurable levels of performance than ever before, with perfect scores across the board.

ICU Patient Safety Measures for 2018:
- Falls: Zero
- Falls with Injury: Zero
- Pressure Ulcers: Zero
- Hospital-Sourced C-Diff Infections: Zero
- Hospital-Sourced MRSA Infections: Zero
Emilie Roy Corey, MSW
Chair, Peconic Bay Medical Center Foundation
Co-Chair, New Era Capital Campaign

Thanks to your generosity and the generous donations of time, energy, and financial resources from hundreds of members of our community here on the East End, Peconic Bay Medical Center has become the #1 health care resource in our region.

That leadership position brings with it a great responsibility—to continue to raise the bar on delivering the level and breadth of health care quality that our world-class community deserves.

I hope you will join me in supporting our hometown hospital as it grows to take its place as the regional medical center for the entire East End.

-Emilie Roy Corey, MSW

Realizing a donor’s vision:
Long Island’s first hospital-based caregivers program

Thanks to a grant from local philanthropist Judith A. Jedlicka, our new Caregivers Center opened with a ribbon-cutting ceremony on November 20, 2018. The program provides much-needed support for the vital but often stressful role of family caregivers in providing patient care, not just during a hospital stay, but during the recovery period that follows when patients return home.

“Resources like this were unheard of when I was caring for my father,” said Ms. Jedlicka. “When the opportunity to support the program was presented to me by the Foundation, I was excited to be part of it.”

The program has already become a model for other hospitals on Long Island.

Find out how you can get involved

The East End deserves a world-class vision of the future.
You’re helping us bring it to
The East End deserves a world-class vision of the future. You’re helping us bring it to life.

Judith A. Jedlicka (L), founder of Peconic Bay Medical Center’s new Caregivers Center, with Tara Anglim, PBMC’s Director of Patient and Family Centered Care.
Peconic Bay Medical Center operates as a not-for-profit healthcare service provider focused on maintaining sustainable financial accountability while providing the highest quality of comprehensive and compassionate care for the communities we serve.

As the East End’s largest hospital and the Eastern Hub of Northwell Health, New York State’s largest healthcare provider, our continuum of care encompasses a growing network of community-based facilities and resources that are making world-class medical resources more accessible for all our residents.

The Heritage Society recognizes friends who wish to advance the mission of Peconic Bay Medical Center and continue the legacy of outstanding care at the medical center. The Society acknowledges those who remember Peconic Bay Medical Center in their will by the creation and support of planned gifts.

To learn more about legacy giving, visit: PBMCHealth.GiftPlans.org or call 631-548-6080
The following is a list of donors who gave Tribute Donations in 2018

In Memory of David W. Allison
Cynthia Philbin

In Memory of CJ Andrews
Renee and Barry Brandeis
Maureen Brady Curzio and James Curzio

In Memory of Marie B. Barton
Wendy and Kenneth Kmetz

In Honor of Melanie Biggs
